

DEMONSTRATION,
TESTING &
PREDICTION EVENT
Friday 23rd of September 2022

SPONSOR OPPORTUNITIES

www.sw2022.org

SW2022 Organizational Committee is inviting you to the Demonstration, Testing & Prediction Event on Friday the 23rd of September 2022. The Demonstration, Testing & Prediction Event which is part of the 11th International Conference on Stress Wave Theory and Design and Testing Methods for Deep Foundations shall be held on Maasvlakte in the Port of Rotterdam. On this day we will make the connection between the theory as presented and discussed on previous conference days and practice of Pile Installation and Pile Testing in the field.

Sponsor opportunities Demonstration, Testing & Prediction event, Maasvlakte Rotterdam The Netherlands

One of the conference days will be dedicated to practical applications of stress wave theory to piles. On reclaimed land at the Port of Rotterdam (Maasvlakte), a site will be prepared for pile testing, offering comparison and analysis of results of different testing methods. Tests will have been performed in advance, the results of which will be presented during this event. Testing methods will be demonstrated throughout the day, as well as installation equipment for sheets piles, precast and in-situ piles, and (offshore) monopiles. Advantages of different pile installation methods will be demonstrated in real time during a pile driving competition.
