ABSTRACT (10.5pt bold)

(12 pt = 1 line)

This document provides information and instructions for the preparation of technical papers to be included in the Proceedings of the 11th International Stress Wave Conference 2022, which will be organized by the Royal Netherlands Society of Engineers (KIVI). The authors are recommended to prepare their manuscript in MS-Word selecting Adobe PDF as the active printer before starting to work on it, because MS-Word document formatting is very sensitive to the selected printer. The first page is reserved for the title of the paper, authors, affiliation, abstract, and keywords. The INTRODUCTION must begin 24pt below the keywords. (10.5 pt)

1 INTRODUCTION (10.5PT UPPERCASE, BOLD) (6 PT SPACING BELOW)

The authors are recommended to prepare their manuscript in MS-Word format and submit both the original MS-Word file and its accompanying PDF file. The deadline for full paper submission is decided by the organizing committee of the event. (10.5pt)

2 GENERAL SPECIFICATIONS (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

The paper must be written in English within a printing box of 17.4 cm × 24.6 cm, centered in the page. The paper including figures, tables, and references must have a length of 4 to 6 pages. In case of invited keynote papers, the maximum length is 16 pages. These lengths may be modified by the organizers. (10.5pt)

3 TITLE, AUTHORS, AFFILIATION, KEYWORDS (10.5pt uppercase bold) (12 pt spacing above and 6 pt spacing below)

The first page must contain the Title, Author(s), Affiliation(s), Abstract, and Keywords. The INTRODUCTION must begin 24pt (= 2 lines) below the keywords. The first line of the title is located 24pt from the top of the printing box. (10.5pt)

3.1 Title (10.5pt bold) (6 pt spacing above)

Author's affiliation should be written below the authors' names in 9pt Times New Roman.

3.4 Abstract (10.5pt bold) (6 pt spacing above)

Use 10.5pt Times New Roman for the abstract. The word **ABSTRACT** must be set in boldface, centered in the page, 24pt below the last author. The abstract text should be written justified, in 10.5pt Times New Roman, within approximately 10 lines, and separated 12pt from the word **ABSTRACT**.

3.5 Keywords (10.5pt bold) (6 pt spacing above)

Please write no more than six keywords. They should be written left aligned, in 10.5pt Times New Roman, and the line must begin with the word **Keywords:** boldfaced.

Each keyword is separated by a comma. A 12pt space should separate the keywords from the Abstract.

4 HEADINGS (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

Fig. 1. Example of photograph and caption (left aligned).

A 6pt space should separate the figure from the caption, and a 12pt space should separate the upper part of the figure and the bottom of the caption from the text.

7 EQUATIONS (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

A displayed equation is numbered consecutively, using Arabic numbers in parentheses.

$$y = ax + \frac{x^2}{b} + \sqrt{t} \quad (1)$$

The equation should be centered, and the equation number should be right aligned in the column, leaving a 6pt space above and below to separate it from the surrounding text.

8 TABLES (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

All tables should be numbered consecutively and captioned. The caption should be 9pt Times New Roman.

Table 1. Test conditions.

Test ID	Width (m)	Height (m)	Depth (m)
Case 1	5.0	2.5	7.5
Case 2	10.0	5.0	15.0

A 6pt space should separate the table from the caption, and a 12pt space should separate the table from the text. The caption of each table needs a period “.” at its end.

9 FORMATS OF REFERENCES (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

In the text, place the author’s surnames (without initials) and the year of publication in parentheses (such as, (Maas et al., 2019) and (Van Rijn and Van den IJssel, 2020)). At the end of the paper, list all references in alphabetical order. Please carefully check the formatting of the reference list at the end of this template. If several works by the same author are cited, entries should be chronological. If there are more than two references by the same first author in the same year, the year is followed by a character in alphabetical order, e.g. 2019a and 2019b.

10 CONCLUSIONS (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

Conclusions summarize the most important propositions concisely derived from the study.

ACKNOWLEDGEMENTS (10.5pt uppercase, bold) (12 pt spacing above and 6 pt spacing below)

Acknowledgements should be written here (if necessary) without a chapter number.
